- When prompted, click Open Cricut Design Space
- Once DS and the selected image have loaded, click Customize

### Customize

- If you selected the Mom Est. Year Design #2

- o On the right side, you will see Layers Panel, highlight the number you would like to delete. For example: “2018” should be “2013” highlight the layer 8 then delete. and add the appropriate year in a matching font, such as Arial (shown under the System tab in the font selection window)
- o Resize the font to match the remaining text
- Resize the image as desired by highlighting the entire image and select **Attach**. Select the grouped images. Enter in the W (width) and H (height) setting at the top of the screen and hit Enter or resize the image by dragging the corners inward or outward.
- Sizing recommendation is as follows:
  - Design #1 W 7.5 x H 9.5
  - Design #2 W 6.7 x H 4
  - Design #3 W 8.0 x H 7.0

- Go to the top and press **Make It**
- Click **Mirror** button, always
- Press **Continue** at the bottom right

### Cutting

- Set your material on your Cricut machine to Everyday Iron On
- Place the HTV vinyl material onto the mat **\*\*shiny side DOWN\*\*** aligning with the top left corner
- Load the mat into the machine by pressing the flashing **arrow key**
- Press the flashing **Cricut logo light**
- The Cricut will cut the image, once it is finished cutting press the flashing **arrow key** for the machine to unload mat
- Flip it over, then peel the mat off the vinyl and not the vinyl off the mat because it will curl.
- Using a weeding tool, pull one corner of vinyl and start peeling back. Take your time with this. Weed out sections caught in the middle of letters.

### Pressing

- Preheat tote for 5 seconds
- Place parchment paper over design
- Temperature will be 340 F for 30 seconds with Firm pressure
- Peel while it is still warm
